24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT <i>(Include scope, size and cost)</i>

SCOPE OF WORK

Elite was commissioned to provide the following services for the \$8,000,000 Major Systems Upgrade of the Consumers Energy Facility with an engineering and construction oversight fee of \$337,900:

- Engineering and design services
- Economic feasibility studies and cost estimates
- Preparation of contract documents and bid analysis
- Construction monitoring required for the replacement of designated major systems including:
 - HVAC – RTU w/DX system & VAV boxes
 - Plumbing, sanitary & water
 - Boiler upgrades
 - Power upgrades, distribution panel & wiring
 - Emergency Generator and UPS system
 - Interior lighting
 - Fire protection, alarm & security system
 - Major architectural & space plans
 - Site improvements, parking & storm drainage

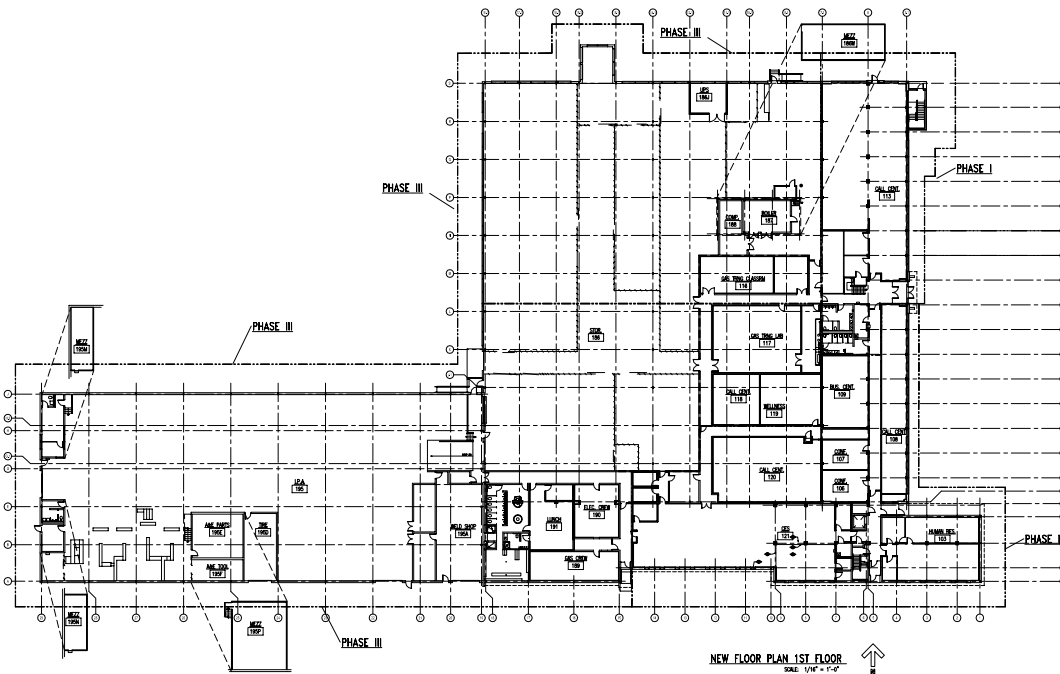

RELEVANCE

Elite reviewed the current facility operation with respect to the client's needs. A detailed study was performed by each discipline. Elite designed new HVAC and Electrical systems for the facility and determined that some of the existing systems were able to be salvaged and integrated into the new design. Further, Elite coordinated the relocation and use of some existing equipment in this and other facilities.

Elite provided a complete set of drawings and specifications for this project.

This project was structured into three phases allowing the Owner to maintain operations within the facility throughout the construction period.

Elite will be providing construction oversight through construction in 2007-2008 and as-built drawings at the end of the project.
